---

You Googled/DuckDuckGo for 5 minutes before you planned a lesson?
You used multimedia to build background for a text/lesson?
You introduced a topic with a TED Talk?
Every student created their own website that showcased their learning and their questions?
You learned a new technology tool every week/month?
You used a mail merge to send home information about your students?
You audiotaped/videotaped lesson introductions/support for students who may need differentiation?
You began/concluded a lesson with an online tool like Padlet?
You shared how you learned a skill from a YouTube video?
You collected Google Images for writing prompts?

Melissa Stewart
New and Upcoming
The stories that I read, listen to, tell, and share are so important and they are part of the reveal of who I was, who I am, and who I want to be.

How do you leverage technology to find and share those stories?

Online Resources & Tools

What are your favorite online resources and tools to:

- Ignite Literacy?
- Delight Literacy?
- Cultivate Literacy?

Publishers Whose Mission Focuses on #OwnVoices and/or Books with Diverse Characters

- Denene Milliner Books
- Scholastic
